

ILL-FATED EXPOSITION.

The Cook Party Meets Its Third Mishap—Runs Down a Schooner.
New York, Sept. 11.—The steamer Portia, from Halifax, with Dr. Cook and seven members of his ill-starred Arctic expedition aboard, arrived at City Island this morning at 3:30 o'clock. A few minutes after 1 o'clock yesterday, off Cuddyhunk light, she ran into the schooner Dora M. French. Four of the crew of five were drowned. The fog was very dense, and the Portia was running at full speed, blowing her whistle at short intervals. She struck the sailing vessel just forward of the main mast, cutting the French clear in two. The latter sank in less than two minutes, going down head first. The man rescued was Mate Jeremiah Murphy, of this city. The other members of the crew were from New England, and the schooner hails from Bangor, Me., loaded with coal from Hoboken. Dr. Cook's party were taking lunch at the time of the accident. Several were badly scared, as this was the third serious marine disaster which the party has encountered since leaving here last July. The Portia is sister ship to the Miranda, their vessel which they were obliged to abandon last month. The Portia was not injured except near her forward compartment, which was filled with water and broken at the foremast.

CHINESE SOLDIERS DYING.

They Cannot Get Food—An Effectual Blockade by the Japs.
Shanghai, Sept. 11.—Food and ammunition are said to be spoiling all along the route southward. As the result food is becoming scarce in the Chinese army, although the men are doing their best to live off the country. The pretense of Chinese naval activity is absurd. The Japanese are said to be maintaining such a blockade of the Korean coast that not even the smallest vessel can get through. Hundreds of Chinese soldiers are reported to have died from want and exposure, and much sickness is said to exist in the ranks. On the other hand the Japanese are said to be much better prepared for active operations. They have succeeded in keeping lines of ammunition open and to have pushed forward.

The King of Portugal will be officially represented by the Duke of Oporto.

Thousands of Veterans March.
Pittsburg, Sept. 11.—Forty thousand veterans of the late war marched through the streets of Pittsburg and Allegheny today. On every street and vacant lot rose tier after tier of human faces and cheer after cheer greeted the veterans. At 10:30 o'clock the parade started from the historic Monongahela House, and the decorations of the two cities were most lavish. It is said by men who attended most of the previous encampments that at no place did they see the decorations on so large and generous a scale. Gov. Patterson, of Pennsylvania, with his staff and a number of notable men and women from all parts of the country, occupied the reviewing stand at Allegheny Park and saluted each division as it passed in review. At short distances apart were placed emergency hospitals, while all along the route were men with cool water and lemonade for the veterans.
Rev. T. H. Hazen, Chaplain of the Ninety-third Illinois, was elected President and Chaplain, and C. C. McCabe, of the One Hundred and Twenty-second Ohio, Secretary of the National Association of Army and Navy Chaplains.

Morgan dodged behind the bar, grabbed a gun and fired, killing Cantwell. The others escaped.

BURNING FIERCELY AGAIN.

High Winds Are Fanning the Forest Fires in the Vicinity of Ashland.
Ashland, Wis., Sept. 11.—Strong winds have fanned up the forest fires in this vicinity, and they are burning fiercely in nearly every direction. They have crossed what is known as the Cemetery road south of Ashland, and the Ashland Driving Park Association, whose buildings are located two miles from Ashland, are in danger. The fire is also very close to Mount Hope Cemetery and the Catholic cemetery, with the strong wind constantly bringing it nearer. Washburn has been enveloped in a cloud of smoke. Forest fires are raging about Saxon and water is being hauled by running teams. Citizens are moving out of their homes with all possible speed. If the wind continues for a few hours the town is lost. Saxon is a small town on the North-west road, and several large charcoal kilns are operated there by the Ashland Iron and Steel Company, which gives it the main support. Saxon was threatened once last week and it was supposed that the timber about there was sufficiently burned off to arrest further danger. Vice-President Johnson, of the Chequamegon Bay Logging Company, which operates in the vicinity of Washburn, stated last evening that there was not a live tree left in his section of the country, which means big losses to timber owners.

CRAZED BY ELECTRICITY.

French Had Grasped a Live Wire at the Top of a 150-Foot Tower.
Detroit, Sept. 11.—On Woodward avenue, right in front of the City Hall, yesterday, away up 150 feet in the air at the top of an electric light tower, lay Frederick French rigid and helpless, his feet tangled in the meshes of wires, his head hanging downward. He was a trimmer and had gone up there to fix the lamps, when he grasped a live wire and became unconscious. He regained consciousness when rescuers reached him and, crazed with pain, tried to fight them off. He was placed in a basket and lowered to the ground. Doctors say he will recover.

Plurality this year 23,715, against 8,245 in 1892, a gain of 15,470. Trampled Under Foot and the British Flag Hoisted in Its Place.
London, Aug. 15.—A dispatch to the Times from Port Limon, Costa Rica, dated August 12, says: "The British cruiser Mohawk has arrived here from the Mosquito country with Chief Clarence and 112 refugees aboard. Blue fields was retaken by 2,000 Nicaraguans, who arrived from Rama and Greytown aboard transports flying the United States flag.
The American marines re-embarked on their approach, abandoning the American residents, many of whom removed the national flag from their houses, trampled upon it, and hoisted the British flag. The Nicaraguan officials, on entering the government house, hauled down and tore into shreds the Mosquito flag and arrested numerous Americans and Jamaicans suspected of sympathizing with Chief Clarence. Capt. Stewart, of the Mohawk, went into the prison and rescued all who were willing to claim British protection. The Mohawk remains at Port Limon awaiting orders from Great Britain. Chief Clarence is still aboard the Mohawk."

LIQUOR DEALERS.

What the Wine and Spirit Gazette Says About Mr. Sattoli's Views.
New York, Aug. 15.—The Wine and Spirit Gazette says: "A careful survey of the whole field justifies us in stating that Mr. Sattoli's views of the relation between liquor dealers and the church are not likely to be carried out by the bishops in the cities of the country. We predicted such result in our issue of July 25. The full discussion which the whole matter has received in the press has been the means of disclosing to the dignitaries of the church a great light. Archbishops and bishops have publicly declared their intention of ignoring Mr. Sattoli's admonitions. The result is a great triumph for the cause of personal liberty."

A conservative estimate places the amount of whiskey in bond at 60,000,000 gallons.

Raising the Price of Whiskey.
Peoria, Ill., Aug. 15.—The Distilling and Cattle Feed Company has advanced prices three cents all around. This was due to the big increase in the demand for the products caused by the passage of the Senate bill. This increase is expected to continue till the tariff law goes into effect.

EUROPE TO TAKE A HAND.

Rumors That the Powers Will Demand That Corea be Let Alone.
London, Aug. 14.—It is rumored in St. Petersburg that England intends to propose that the powers co-operate in demanding that both China and Japan withdraw their forces from Corea forthwith, and intrust the Government of the peninsula to an international conference.
The rumor is the subject of much comment. The opinion is general that Russia would never consent to such a proposition. She prefers to let events take their course while her interests are not menaced.

The Vienna correspondent of the News says that England, France and Russia have agreed not to tolerate an attack on Pekin. Their respective squadrons have been instructed to interfere if the Japanese attack Taku.
The Shanghai correspondent of the Central News says that a strong Chinese fleet has left the coast. The impression in Shanghai is that this fleet will seek to intercept the transports which are carrying Japanese troops to Corea.

There were only a few ironclads among the Japanese vessels that attacked Port Arthur and Wei-Hai-Wei. Most of the fleets were merchantmen which had been converted hastily into cruisers and were carrying troops for work ashore. What has become of the Japanese fleet since the morning of the 11th nobody in Shanghai has heard.

There is considerable apprehension also the Chinese coast of the Yellow Sea, and small steam vessels are scouting constantly, but no view of the hostile squadron was obtained either yesterday or to-day.

The Chinese were alarmed greatly by the attack on Wei-Hai-Wei. More submarine mines have been laid before Taku and Wei-Hai-Wei.

The British war ship Mercury left Chee-Foo at noon on Saturday for Wei-Hai-Wei to protect the foreigners at the latter port.
Many of the buoys along the Chinese coast, most notably in the neighborhood of the threatened ports, have been removed.

"DEFENCE NO DEFIANCE."

Anarchist Mowbray and His Howlings at Newark, N. J.

Newark, N. J., Aug. 14.—About 200 people attended Oertel's Park last night to hear William A. Mowbray, the English Anarchist. Mowbray plunged at once into an address on "How shall we organize." He said that labor organizations were a power but must be reckoned with the politicians.

"And still the laboring men inscribe on their banners, 'Defense, No Defiance.' How good they are to let the juggernaut run over them! But then there will be a kick some day, and when the Anglo-Saxons kick they kick hard."
"Then the capitalist press will howl for gatling guns to shoot down the poor. I have seen shooting galleries. Why don't you procure guns and learn to shoot? There is no law against that. Gens. Wallace and Schofield have said 'Shoot to kill.' So I would say, 'Shoot to kill,' but if you can't kill don't shoot."

"Twenty-five thousand laboring men have to work to pay the expenses of the Earl of Dudley and his mistress. The wine the rich drink in their gilded salons is the blood of your children with which they quench their abominable thirst. So are all the luxuries of the rich at the expense and degradation of the working poor."

THE TARIFF.

The Senate Bill is Passed in the House.

Washington, Aug. 14.—The House passed the Senate tariff bill last night in accordance with the determination of the Democratic caucus. The "trust" Senators have won for the time being. Their schedule was adopted in spite of the statements that the House would never surrender. Rather than see all tariff legislation defeated the House passed the Senate bill by a vote of 182 to 105. Then there were four new bills introduced, passed without being referred to any committee and sent to the Senate. The first provided for free sugar and was passed 276 to 11; the next for free coal, 190 to 104; free iron ore, 163 to 102, and free barbed wire, 187 to 84.

Two hours debate was allowed on the question, shall the Senate amendments be agreed to? and several tariff speeches were made. Mr. Cockran made a bitter speech, and Mr. Reed grew sarcastic as usual. Mr. Wilson made an explanatory speech and then the vote was taken. After the announcement of the result, Mr. Wilson sent up the four other bills which were passed and at 10:25 the House adjourned.
